

“The intake process was seamless! The Intake Specialist was friendly and compassionate throughout the whole process. She remained gracious and patient despite my many questions. Due to her kindness during our initial contact, I decided to choose Tri-County Care as our Care Coordination Organization. After using a previous agency, I found Tri-County Care and am very pleased.”

– **D.G. Springfield Gardens, NY**

“I use a wheelchair and an adaptive stroller, and when my stroller got worn out, Medicaid wouldn’t fund a new one. My Care Manager worked with a program at OPWDD to get my stroller funded. She did such a great job, the approval process was even quicker than it has been in the past. Thank you Care Manager Brenda!”

– **Anonymous, Monsey, NY**

Life-changing care begins with life-changing service

Let's create a blueprint for the life you imagine

Tri-County Care is committed to provide outstanding care management for individuals with intellectual and/or developmental disabilities (I/DD).

We represent you from start to finish by coordinating with multiple agencies to access various services.

You get all the help you want to plan all your needs, including disability services, community-based supports, and health and wellness services.

No red tape

Only blue skies and a bright tomorrow

As a Care Coordination Organization (CCO), we are here for you.

In addition to constant contact and timely responses to all your questions, Tri-County Care is ready with in-house care managers who are well versed in your needs. For the strongest support, just visit or call your local Tri-County Care Office, and you'll be talking to a professional right away.
