## DAY HAB - WEEKLY

Although most people didn't even start purim prep, we are ahead of the game and have already checked out the Matzah bakery to see how the matzah production of this year is coming along

Yes, we take birthdays personally! It's our personal simcha. And this time it wasn't just another birthday celebration, it was Yitzchok F.'s birthday. As with each of our friends, every birthday counts and means a lot to us all; a united family. Actually, a big 30 brothers family, with each individual contributing their unique flavor. In Yitzchok's case it's his helpfulness to all and his awesome middos at the dayhab which make him so special.

They say outside is cold, rainy and a blah weather? Well, we are not aware and totally not tuned in to it. 'Whether' its true or not, when you're having fun like this, the weather outside surely doesn't matter.
